Dr. Geri J. Anderson, System Provost

Application
This guideline applies to the state system of community colleges.

Principle
In order to award Reverse Transfer Degrees to non-active students, a residency must be assigned to the term that the degree is awarded.

Guideline
When awarding a Reverse Transfer Degree to a non-active student, colleges will use the last known residency for the student as listed in our student information system (Banner). This practice will not impact tuition classification as the student will have a registration hold placed on for the award term and made inactive for the term after.
