

Ensure Students Are Learning:

Supplemental Exercises and Resources

Introduction

The following sets of discussion questions and resources were curated to supplement materials produced through a joint effort between the Office of Community College Research and Leadership (OCCRL) at the University of Illinois Urbana-Champaign and the Center for Community College Student Engagement (CCCSE) at the University of Texas at Austin. These primers discuss in varying depth the multifaceted ways students' raced realities on community college campuses shape their academic experiences—both inside and outside of the classroom. Additionally, the materials referenced henceforth explore equity-centered practices that college professionals—including faculty, department chairs, deans, and directors—can employ to ensure all students are learning.

Supplemental materials presented below are provided under the assumption that the reader has already engaged the referenced briefs; therefore, clarifying language including definitions and context are not provided. Accordingly, the following exploratory materials should be used to further the reader's understanding of issues pertinent to racial equity on community college campuses with the hope that educators will initiate discussions that prompt actions toward ultimately reifying equity-minded structural changes to how colleges serve their students.

Issue Brief One

Citation: Zamani-Gallaher, E. M. (2020). *Asset-based, equity-minded approaches to teaching and learning* (Issue Brief 1). Office of Community College Research and Leadership; Center for Community College Student Engagement.

Reflection/Discussion Questions

- Whether all students are engaged and the degree to which your materials, lectures, assignments, and so forth elicit student voice.
- Whether the learning objectives and course content reflect culturally relevant learning.
- Actively rejecting colorblindness in your curriculum and instead opting for culturally responsive pedagogical approaches and equity-mindedness.
- Connecting to your students' experiences and designing activities and lessons with their cultural background in mind.
- Whether students' experiences with certain topical areas or parts of your curriculum lead to inequities or privilege some learners in the classroom or particular pathways/programs of study.
- How you will build upon the assets of the diverse learners in your course or department.

Issue Brief Two

Citation: Keist, J. A., & Dyer-Barr, R. (2020). *Centering Equity-Mindedness in Syllabus Construction* (Issue Brief 2). Office of Community College Research and Leadership, Center for Community College Student Engagement.

Reflection/Discussion Questions

- How do your social locations (i.e., race, gender, social class, ability, age, etc.) affect how you perceive your students and pattern your interactions with them?
- Who is present and who is absent from course materials?
- What knowledges are most valued within your course? What means do you provide for students to demonstrate learning? Do these means privilege some forms of knowledge? Do they penalize others?
- How are expectations negotiated within your classroom? Do your students have a say in crafting expectations and how they are measured/assessed?

Issue Brief Three

Citation: Andrews, K., & Welton, A. D. (2020). *The Importance of Midlevel Leaders in Advancing Equity*. (Issue Brief 3). Office of Community College Research and Leadership; Center for Community College Student Engagement.

Reflection/Discussion Questions

* Per case study in Issue Brief #3:

- As the department chair, what sessions would you include into your professional development proposal to infuse equity-mindedness into your departmental practices and courses?
- What level of support would you need from Dr. Johnson and Dr. Best to operationalize your professional development plan?
- How would you address these grievances with Dr. Winters?
- What strategies could you employ to make faculty more aware of their implicit racial biases, and how could you ensure that this newfound level of awareness changes the long-term practices of faculty?

Additional Resources

- [Bias Cleanse](#): The Kirwan Institute for the Study of Race and Ethnicity partnered with MTV to create a seven-day exercise to raise individual awareness on race and gender bias.
- [EQUIP \(Equity QUantified In Participation\)](#): This is an equity-focused classroom observation tool by Dr. Daniel Reinholz and Niral Shah. It is currently being used by K-12 school districts, higher education teaching/learning centers, and research teams. The main goal of EQUIP is to support practitioners in identifying biases and making classrooms more equitable.
- [Project Implicit](#): Take the Implicit Association Test (IAT).

Issue Brief Four

Citation: Georges, Jr., C. T., & Rockey, M. (2020). *Equity-minded approaches for cultivating student engagement in the classroom* (Issue Brief 4). Office of Community College Research and Leadership, Center for Community College Student Engagement.

Reflection/Discussion Questions

- Would I describe my pedagogical practices and course materials as monocultural or multicultural?
- What are my own social identities and how do they differ from my students?
- What kinds of opportunities exist for applied learning in my discipline?
- What kinds of opportunities exist for implementing high-impact teaching practices?
- What role do I have in disrupting racial homogeneity in my courses, program, and institution?
- In what ways do I seek to build relationships with students in my classroom?
- What role do I have in assessing course, program, and institutional learning outcomes?
- What professional development would I need to advance my knowledge toward becoming an equity-minded educator?

Acknowledgements

We appreciate the people and organizations that have provided generous support of this effort, the Bill & Melinda Gates Foundation (Patrick Methvin and Nate Simpson).* It is an honor to partner in fostering equitable student learning outcomes across diverse students. From conception to production, the staff of the Office of Community College Research and Leadership (OCCRL) at the University of Illinois at Urbana-Champaign and the Center for Community College Student Engagement (CCCSE) at The University of Texas at Austin were instrumental in the development of this five-part brief series. We are particularly thankful to Jason A. Keist and Sal Nudo for their editorial and design development feedback.
