

Centering Equity: Using the Comprehensive Local Needs Assessment (CLNA) to Recalibrate Career & Technical Education Programs

A Virtual Workshop

Friday, December 1, 2023

Noon-1:30 p.m.

Join as we connect with colleagues across the state to further discussions on the Comprehensive Local Needs Assessment (CLNA), a tool developed to assist Illinois community colleges in examining the success of their career and technical education (CTE) programs.

Through the lens of racial equity, this webinar will center discussions on advancing equitable outcomes by targeting program improvements leading to student success (i.e., persistence, retention) for Illinois' increasingly diverse student populations.

Sponsored by the Illinois Community College Board, this webinar will engage community college stakeholders who are a) interested in using the CLNA to guide practice; and b) advance understanding for those who want to move beyond discussion to action. Participants will hear from those who have used the CLNA to guide their own practice and connect with colleagues who have worked to embed equity systemically to all aspects of CTE program structures, resources, materials, curricula, pedagogy, and practices.
