Insights into Equity and Outcomes

Equitable student outcomes are at the center of the Pathways to Results process. As we improve Programs of Study and student outcomes in the State of Illinois, the barriers to success for all students should continue to be at the forefront of the work we do. In this issue of PTR news, we introduce *Insights into Equity and Outcomes*. The focus of this issue is barriers and opportunities for Latino students. This brief provides stakeholders with tools that empower transformation, calling attention to the needs of underserved students.
