

## Pathways to Results News

---

### [Insights into Equity and Outcomes Series](#)

This past academic year, the Office of Community College Research and Leadership has made available four briefs on special populations in community colleges. Each brief has called attention to the needs of a specific underserved group: Latino/as, African Americans, Asian Americans, students with disabilities, and the barriers to success these students face, as well as what practitioners can do to eliminate these obstacles.

The fourth issue of [Insights into Equity and Outcomes](#) is now available and focuses on students with disabilities. This brief provides PTR stakeholders, both at the high school level and college level, with tools that empower transformation.

All four issues of *Insights into Equity and Outcomes* are available on the [PTR Resource page](#) and will be made available to our Pathways to Results teams in print.
