

OFFICE OF COMMUNITY COLLEGE RESEARCH AND LEADERSHIP

ASPIRE

NSF EDDIE BERNICE JOHNSON
INCLUDES ASPIRE ALLIANCE

SUMMARY

With the help of Regional Collaboratives, the Aspire Alliance works to expand the talent pool of STEM faculty nationwide by engaging with a growing network of partners to support systemic change in the STEM higher education system.

GOALS

- Integrating all the organizational lessons learned in the current INCLUDES grant into a Regional Collaborative backbone.
- Assisting Regional Collaboratives in sustaining their local activities past the end of the grant to maintain long-term trajectories toward scaled reform.
- Working to pilot the institutional self-assessment tool for supporting the hiring and success of a wide range of STEM faculty with added attention to career and technical education.
- Developing a sustainable income model to continue backbone work past the supplemental year by extending Aspire Regional Collaborative activities.
