

OFFICE OF COMMUNITY COLLEGE RESEARCH AND LEADERSHIP

PATH: Pipeline for the Advancement of the Healthcare Workforce

SUMMARY

The PATH evaluation project seeks to examine the experiences and perspectives regarding how community colleges in Illinois engage learners - primarily adult learners - in their career and technical education (CTE) healthcare programs.

GOALS

- Understand how the PATH program is functioning in practice, whether it is meeting its stated goals, and how it is impacting students and the healthcare workforce.
- Explore the experiences and perspectives of adult learners who are participating in CTE programs in community colleges in Illinois, specifically those enrolled in the PATH program.
- Identify key implementation practices, outcomes, challenges, and opportunities for improvement in engaging adult learners.
