Using Data to Close Equity Gaps and Open Windows for Opportunity
April 2, 2015

10 a.m. - 2p.m.
Rend Lake College Marketplace
321 Potomac Blvd
Mt. Vernon, IL

There is no cost to attend this workshop
To register, follow this link. Registration closes on March 27, 2015.

The Pair and Share Pathways to Results: Using Data to Close Equity Gaps and Open Windows for Opportunity workshop will provide resources and the opportunity to learn with fellow educators about how use student- and program-level data to identify and close equity gaps in programs of study. Pair and Share facilitators will discuss strategies for mixed methods inquiry and for using identified outcomes gaps to move toward solutions and improved opportunities for all students using your students’ and institutions’ strengths.

This workshop is open to individuals and teams from across the P-20 educational pathway. Please contact Edmund Graham, at egrahag3@illinois.edu, with questions about Pair and Share registration. Registration closes on March 27, 2015.

Resources Now Available from Scaling Up Pathways to Results Conference

Over 150 educational leaders from across the state and spanning educational sectors came together on Tuesday, March 10th for the 2015 Scaling Up Pathways to Results Conference.
conference Advancing Equity: Many Pathways, One Goal. Conference materials, including the program and presenter slides, can be accessed here.

This conference focused on the many ways that emerging “pathways” and “pathway thinking” can help P-20 educational leaders and partners construct, evaluate, and improve programs of study and student experiences in order to promote equitable outcomes.

Expanding the Pathways to Results Lens: Learning from Blurring the Lines 18 Years Later

Within my first month as a newcomer to Illinois I heard more than one person mention a “Blurring the Lines” report when discussing practices to support student learning in career and technical education programs. After some digging, I managed to locate a copy of this report (here). Written in 1997 by the Illinois Task Force on Academic/Occupational Integration, this publication’s full title is Blurring the Lines: Integrating Academic and Occupational Instruction at the Community College. I found that although this report is 18 years old, it is also completely relevant to our work today.

Blurring the Lines mirrors national conversations about the quality and equity of workforce preparation; “stackable” credentials that lead students from a certificate in a technical field, to an associate’s, and finally to a bachelor’s degree and beyond; and the value of high-impact practices touted by organizations like the Center for Community College Student Engagement or the Association of American Colleges & Universities. The report details specific practices that can improve student engagement and meaningful learning in community college career and technical programs through integration of technical learning with academic content, team learning, or work/community-based experiences. Insights from Scaling Up: Uniting Many Points of Light

One of the many highlights of OCCRL’s 2015 Scaling Up Pathways to Results conference was the afternoon plenary titled Using High-Impact Practices to Strengthen Student Transitions and Success. Panelists shared their
own promising practices and strategies for assessment, as well as the critical cross-sector partnerships that have produced meaningful results for underserved students experiencing a broad range of transitions, whether from secondary to community college, community college to university, or secondary to university... While Dr. Applegate reflected on the strengths of these evidence-based initiatives, he also observed what many of us have come to realize—“there’s not a problem in higher education that hasn’t been solved somewhere...” So, how do we bring these solutions to scale for all students? Read more.

**Perspectives on Pathways at OCCRL's Scaling Up Conference**

On Tuesday March 10, 2015 the Office of Community College Research and Leadership (OCCRL) and Pathways Resource Center (PTR) held its annual Scaling Up Pathways to Results Conference. Vickie Choitz, Associate Director of the Economic Opportunities Program at the Aspen Institute opened with her keynote address entitled: *Raising Floors and Building Ladders: Why We Need Both Paths to Achieve Equitable Outcomes*. Highlighting the need for both educational opportunities and career pathways, Choitz reminded the audience of the need for livable wages in generating opportunities out of poverty, stating, “we may succeed in getting students through career pathways, but what is waiting for them on the other side people can’t climb ladders on shaky floors.” Read more.
